ALVEUS
An expression of taste

Product Catalogue

With over 50 years of **experience**, with **passion**, with **vision**,
we continue our **tradition**, directed towards the future.

... from Slovenia

Kovinoplastika Lož with its brand Alveus is one of the largest and most successful European suppliers of kitchen sinks and related equipment, which boasts a 66 year tradition. It is an international company, which has earned its enviable position in the kitchen equipment market by pursuing the highest quality standards, keeping pace with modern design trends, and being a flexible and reliable business partner.

Due to its products, which boast not only outstanding quality but also an excellent quality/price ratio, Kovinoplastika Lož is quickly and effectively strengthening its market positions in Slovenia as well as in other European countries.

The Alveus brand sinks are available in many markets seven of which are controlled successfully by Kovinoplastika Lož through its subsidiaries and the rest through long-term successful partnerships with local companies.

Apart from manufacturing and marketing the Alveus brand products, Kovinoplastika Lož successfully manages the production programmes of other own brands, among which the building hardware and joinery brands stand out.

Gastronorm programme is designed for use in the catering and hotel industries and in canteens. Kovinoplastika Lož has a long tradition in cooperating with europeans most important companies in field of components.

As Kovinoplastika Lož is one of the most important centres of manufacturing knowledge in the region, the company also boasts a long tradition of successful tool manufacturing service marketing and sophisticated tool and machine manufacture and marketing.

Cookers	240

The kitchen has become the centre of modern interiors, the heart of any home, the place where family ties are woven. Alveus presents sinks and other kitchen products, which can bring your kitchen in line with the latest trends. When it comes to innovation, material and manufacturing quality, and constant search for new solutions to increase the comfort and functionality of our products, we make no compromises. This is why Alveus sinks rank among the top modern design solutions, and boast quality that exceeds similar products in many respects.

The Alveus brand products are designed for modern high-end kitchens. In today's interiors, the boundaries between the kitchen and living area are becoming blurred, while minimalist, refined and sophisticated design solutions have begun to gain ground.

With their large, clean surfaces and innovative approach to space use, Alveus sinks perfectly match the latest furniture and architectural ideas. They are made for kitchens just like that, as their outstanding design and functional qualities exceed the existing standards in many ways.

The carefully designed solutions will enhance your food preparation and kitchen work efficiency. Alveus sinks are manufactured from top-quality modern materials, which ensures easy and environment-friendly maintenance and decomposition.

Great advantages

Modern kitchens are flexible, well designed, and increasingly freed from the traditional division into the cooking, work and wash-up areas. With state-of-the-art sinks, the Alveus brand promotes innovative and functional kitchen solutions, which transcend the limits of the “wet” kitchen area. Alveus sinks are thus becoming an important part of everyday life, and are designed and manufactured accordingly, displaying the four most significant qualities that place Alveus sinks among the top products in the market.

Sturdiness

Alveus sinks rank among the most durable sinks in the market since they are manufactured from AISI 304 stainless steel up to 1 mm in thickness. The main advantage of thicker steel are greater impact resistance, increased stability of a sink tap and significantly reduced level of water splashing noise. In weight comparison, sinks made of thicker stainless steel are heavier. Granite composite sinks are composed of granite parts tightly bound with high quality polymer resin, which helps to acquire excellent mechanical properties and chemical persistence. Some Alveus finished goods are made of tempered glass, a type of safety glass with significantly increased toughness and thermal shock resistance.

Handiness

Alveus sink bowls can be deeper than other products of the sort. The capacity of the sink is thus increased by up to a few litres, which makes the task of washing up large pieces and big amounts of dishes much more comfortable.

The sinks use 1¹/₂" or 3¹/₂" drain plumbing (depending on the model), which allows quick drainage of large amounts of water.

Health and Environment Friendliness

Alveus sinks are surface treated to resist the growth of mould, microorganisms and bacteria. All surfaces are easy to clean, as the sinks have no inaccessible spots for bits of food and other grime to accumulate.

In addition, Alveus sinks are environmentally friendly, containing no harmful admixtures that might be released into the environment upon decomposition.

Durability

Alveus sinks are easy to clean and maintain, as they are manufactured from top-quality materials and designed to allow simple maintenance without aggressive cleaning agents. The composite as well as stainless sinks are extremely resistant to impacts, high temperatures, scratching, chemicals and all sorts of stains.

Care and Maintenance

The products united under the Alveus brand are first-rate products in terms of quality, manufacture, materials and design. Since the sinks are made of various materials with specific characteristics, care and maintenance must be adjusted accordingly. Every sink is supplied with care and maintenance instructions. Following the recommendations stated, you will ensure a long service life to your Alveus kitchen products.

Stainless steel sinks

Soft cloths and liquid household cleaners should be used for cleaning. We recommend **ALLSHINE cleaning and care agents**. Avoid silver cleaner, steel wool pads, bleach or abrasive detergents. Do not deposit unprotected metal objects onto the stainless steel parts.

Should stainless steel come into contact with strong acids or leach, flush it immediately with a large amount of water. To avoid staining, do not leave food or corrosive substances (e.g. fruit juice, kitchen salt, vinegar, mustard, mayonnaise etc.) on stainless steel surfaces for longer period. We recommend that stainless steel products be wiped with a dry soft cloth after use to prevent scale formation.

Composite sink

Most stains and dirt can be removed with mild liquid nonabrasive household cleaners or ammoniac-based detergents. More difficult stains can be removed with a fine polishing agent; the remains of limestone can be removed with 9% acetic acid (vinegar). We recommend **ALLSHINE cleaning and care agents**.

Chlorine detergents (soda hypochlorite) or hydrochloric acids as well as exposure to strong chemicals (varnish removers, oven cleaners, concentrated acids, lye and similar) can damage the sink finish. Should the contact occur, rinse quickly the surface with water. We recommend the use of appropriate chopping boards.

Kitchen taps

For cleaning of Alveus kitchen taps it is best to use a soft cloth, hot water and liquid detergent for kitchen sinks. Should scale build up on the tap, remove it with 9% acetic acid.

Silver cleaners, steel wool pads, bleach or abrasive detergents can damage the tap finish, so they should be avoided. Chlorine detergents (soda hypochlorite) or hydrochloric acid can cause a similar effect.

What to pay attention to when choosing a kitchen sink

When buying a kitchen sink it is recommendable to, consider the following:

CABINET WIDTH – first of all, you must know the size/width of the sink cabinet, which influence, on your choice.

Our sinks are classified according to the minimum required cabinet width, namely 400, 450, 500, 600, 800, 900 and 1000 mm plus 900x900 mm corner cabinet.

Smaller kitchen sinks can be accommodated by larger cabinets, but never vice versa. For instance, a sink dimensioned to fit a cabinet of 400 mm minimum width can also be installed into any cabinet exceeding the designated size.

SINK ORIENTATION – once you have determined the cabinet width, you have to determine the orientation of the sink on the kitchen worktop. You can choose among left-hand, right-hand and reversible sink designs. Most of the sinks are reversible, you need not worry about the orientation upon your purchase, as you can turn the sink with its main bowl(s) according to your needs.

left-hand main bowl on the left, drainer on the right

right-hand main bowl on the right, drainer on the left

reversible any arrangement possible; bowl on the left or on the right

corner can be installed into corner cabinets
some models also into regular cabinets

In the next step, you can choose among

VARIOUS MATERIALS (stainless steel, tempered glass or composite material),

VARIOUS INSTALLATION TYPES (inset, flush mount, flat mount, undermount or sit-on)

VARIOUS SINK DESIGNS

Installation Types

Alveus sinks are suitable for various installation types, thus adjusting completely to the design and architectural requirements of your kitchen.

Inset sinks are installed into the kitchen worktop, thus forming part of the continuous working surface. Sink is inserted from above into a suitable worktop cut-out and fastened with supplied clamps.

Flush mount sinks are installed into a previously adjusted kitchen worktop made of waterproof material (natural stone, composite material, glass, impregnated solid wood). The surface of the sink and surface of the worktop are at the same level. The main advantage is a seamless working surface that enables very easy cleaning and an attractive appearance.

Flat mount sinks are installed into the kitchen worktop so that a uniform working surface is created. Thin, almost unnoticeable rims allow quick and easy cleaning. An additional advantage is a simple installation from above into each type of kitchen worktop.

Undermount sinks are installed into the kitchen worktop from below. Worktop must be made of waterproof material, such as natural stone and composite material. This type of installation enables various combinations of undermount bowls in different sizes. The absence of seams between sink and worktop contributes to simple hygiene maintenance and overall appeal of a kitchen.

Sit-on sinks assume the function of the kitchen worktop by replacing it on top of a kitchen cabinet. They either "sit" at the end of a worktop or connect two worktop ends (one on each side). Alveus Sit-on Sinks normally have a rear wall rim of 30 mm, however, there are a few versions without it (please see individual sinks description). The sinks can be installed in combination with standard worktops of 30 mm thickness. They are fastened using the of integrated wooden frame.

Top-Quality Materials

Alveus kitchen sinks are available in several materials, surface finishes and colours. Apart from the stainless steel sinks various finishes, our offer includes selected models in combination of tempered glass with stainless steel and models made of high-quality composite material Granital.

Premium Stainless Steel AISI 304

The main characteristics and advantages of AISI 304 stainless steel are:

- Easy cleaning which ensures a high level of hygiene
- Resistance to high temperatures and rapid temperature changes (thermal shock)
- Resistance to impacts
- Resistance to chemical influences
- 100 % recyclability

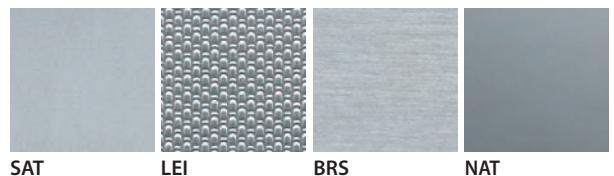

The stainless steel thickness ranges from 0.5 mm to 1.0 mm depending on the price range of the sink.

Surface finishes

Alveus stainless steel kitchen sinks are available in four surface finishes, all of the high quality but with a different appearance.

The stainless steel surface of Alveus sinks can be **smooth and semi-shiny (NAT)**. After brushing the surface in an only straight direction, we obtain **brushed (BRS)** stainless steel which appears in a bit mat dark and elegantly scratched surface. Brushing the sink surface in various direction gives it a silky glow with **satin finish (SAT)**.

Leinen (LEI) surface finish has an appearance of tiny pattern that makes stainless steel less sensitive to tiny scratches.

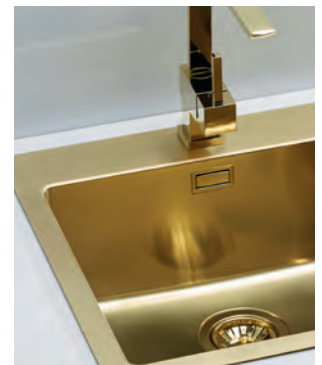

Special surface treatment of stainless steel

A thin vaporised metal substance known as ceramic nitride is deposited onto stainless steel surface, resulting in unique metal luster and increased scratch resistance.

The surface-treated stainless steel is available in four precious metal colour shades - **GOLD, COPPER, ANTHRACITE** and **BRONZE**.

Due to the nature of the surface treatment process, each sink ends up with a unique colour shade.

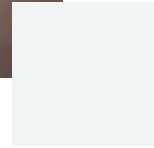

Tempered Glass

Tempered glass is a safety glass with an emphasis on toughness and thermal resistance. There are two available colours - black and white which will bring uncompromising elegance and style into every kitchen. You may also order customized glass surface with the colour or graphics of your choice.

white

black

graphics
on request

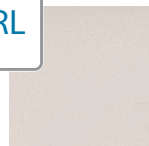

Granital composite material

Granital composite material is a mixture of 75-80% granite particles bound together by a high-quality binder, which provides strength and flexibility to a kitchen sink as well as the resistance to temperature shocks.

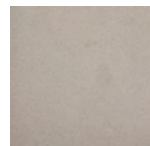

Sinks in Granital material are available in various colours to which we added extra four Granital Plus shades with metallic shimmering parts which give to the sink an elegant high-end look.

Non-porous surface makes the kitchen sink smooth and pleasant to the touch. The smoothness of the surface provides an easy cleaning of the kitchen sink. Increased material sturdiness and cleaning by following the instructions guarantee a long service life to these sinks.

Fully Equipped

Seals

Most of the sinks are fitted with top-quality Alvoflex seals already attached to the undersides of their outer rims. This is a permanent fixation that enables faster and easier installation, and prevents water leakage under the sink rim to the kitchen worktop and cabinet.

Sound-Deadening Undercoating

As a contrast to some competing products, all Alveus stainless sinks are serially fitted with special sound-deadening undercoating. This undercoating mitigates the noise from water splashing upon hitting the sink surface, and thus successfully increases the comfort of working and living.

Mounting Accessories

The type of fastening accessories depends on:

- installation type of sinks and
- kitchen worktop material.

There are suitable accessories available for each type of sink installation - I (inset), F (flush), S (flat) or U (undermount). For the I, F and S installation methods, there is an optimum number of fastening clips enclosed with each sink, suitable for mounting into worktops of 30 to 40 mm thickness.

Factory-Made Cut-Outs

Assembly of additional Alveus elements is very simple, as the hole for kitchen fittings and eventual other equipment (PUSH pop-up waste or detergent dispenser) are mostly prepared already in production. Thus, there is no need to bother with the risky business of cutting out the precisely located holes yourself.

Overflow

Alveus sinks are designed in a way that the excess water does not remain on the level surfaces, but is drained either through the central drain or overflow. The overflow is an opening on the bowl wall or drainer surface, which prevents water from spilling over the sink in case the waste drain is blocked. The overflow is thus a kind of a safety device in your kitchen.

Accessories

With suitable accessories, such as strainer bowls, chopping boards, detergent dispenser, trays and covers Alveus sinks turn practically into complete small kitchens, furnished for the most delicious activities. The majority of sinks have the most important and most interesting accessories included in the basic package, which is clearly marked in this catalogue. The rest of the accessories are available to order.

Waste Kits and PUSH Pop-Up System

Most sinks come with a suitable waste kit to facilitate the installation process. Certain sinks are supplied with the Pop-Up system, which allows remote operation of the drain stopper. Certain Alveus kitchen sinks are available with the upgraded version of the Pop-Up system, that is with a PUSH Pop-Up system, which enable the management of the smartly covered outlet by just pushing a button.

Both systems are very practical for the moments when we wish to close a waste or empty the water of a full sink without getting our hands wet.

Monarch Collection

Every kitchen deserves a wonderful sink. The Alveus brand of sinks has had a new addition to its product range – the Monarch Collection. These sinks come in four stunning colours shades: GOLD, BRONZE, COPPER and ANTHRACITE. These precious stainless steel colours will add unique sparkle to your kitchen. The metal lustre of Monarch Collection sinks will add a touch of mystique to your kitchen. Due to special surface treatment technology each sink ends up with unique colour shade. Sinks from the Monarch Collections can be complemented by the taps Alveus in Monarch shades.

- a collection for unique, different kitchens
- special surface treatment of stainless steel adds a unique metal lustre and increases scratch resistance

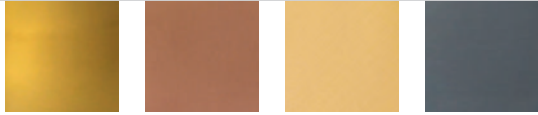

- models available in four precious colour shades
- waste outlets in sink colour
- overflow in sink colour
- possibility of combining kitchen sinks with various kitchen mixer taps in the same colour shade
- accessories in sink colour

Glass Collection

Crystalix, Karat up, Wave Up and Glassix Up kitchen sinks with glass top will bring creative elegance and colour into your home. These sinks are made for most demanding users, who require not only uncompromising quality, but also cutting edge design and who dare to try something different. The sinks are available in four amazing designs in different models and colours. They are manufactured from premium stainless steel and equipped with glass top made of tempered safety glass.

Up-graded versions with a new PUSH Pop-up drainer system are of high-end look and offer extra functionalities thanks to a push Pop-up handle and removable magnetic waste cover.

Tempered safety glass improves the mechanical properties of the glass by greatly increasing its toughness.

- the glass top is made of tempered glass of above-average thickness which makes the surface harder and heat resistant
- deep, spacious sink bowls are made of high-grade stainless steel
- compactness of the product enables stable installation of the heaviest mixer taps
- possibility of ordering the glass surface in any RAL colour shade or with unique graphics of your choice
- in addition to the sink, the standard kit contains:
 - Pop-up waste kit
 - square detergent dispenser made of chromed brass (Crystalix)
 - functional, stainless steel strainer bowl of a modern design (Crystalix)

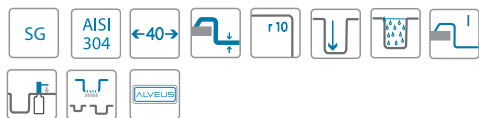

- contemporary and timeless design
- clean lines and smooth surfaces – enable easy cleaning and maintenance
- an aesthetic combination of the kitchen sink with black or white tempered safety glass
- the glass surface enables quick and easy cleaning thereby ensuring hygiene of surfaces
- prefabricated holes Ø 35mm for the installation of the mixer tap, Pop-up siphon
- Pop-up system – enables remote water-draining management
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- precisely and fine-ground edges of the glass drainer surface - prevent possible cuts and reduce the possibility of damaging the sink to a minimum
- above-average soundproofing

Stylux

The kitchen has grown into focal point of modern interiors, becoming the heart of family life and a place where the most important family ties are woven. Alveus will warm your heart with Stylux, the family of kitchen sinks, which belongs to the very top of contemporary design solutions. You can choose amongst five fabulous sink models of different dimensions that are built from AISI 304 grade stainless steel in 1 mm thickness, and enhanced by a wide range of innovative and stylish accessories. Let the family ties be woven with Alveus...

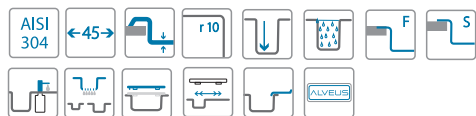

- the bowl radius of 10 mm in combination with 200 mm depth provides for a considerably larger dishwashing space
- 1 mm thick stainless steel - ensures greater rigidity and stability of the sink
- additionally reinforced fixture area
- square waste outlet – corresponds with the minimalistic design as well as the straight, clean lines
- flat mount inset (S) or flush mount inset (F) installation – adding to the clean design
- flush mount inset (F) installation with seamless edges enables simple cleaning
- functional optional accessories:
 - TriTop - additional working space, sink covering
 - a glass chopping board slides along the entire length of the sink
 - square detergent dispenser, corresponding to the sink design
 - large strainer bowl – perfect for washing or draining food items or setting aside smaller dishes

- contemporary and timeless design
- clean lines and smooth surfaces – enable easy cleaning and maintenance
- smooth drainer surface, inclined towards the bowl – prevents scale accumulation
- bowl inclination towards the waste outlet – enable water to drain-off faster
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- Stylux 40 – with its large bowl combined with optional equipment makes for a perfect kitchen workstation
- Pop-up system – enables remote water-draining management
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- position of waste outlet - enables more effective use of space in the cabinet underneath the sink
- above-average soundproofing
- enclosed Pop-up waste kit

STAINLESS STEEL

Jubilee

With 50 years of experience, passion, vision and a bit of courage Alveus launched a limited edition of a special kitchen sink - JUBILEE. Its combination of clean and organic lines will perfectly match the modern kitchen design and give it a bit of a kick with its flowy shape.

We complemented its original design with an aesthetic and super functional PUSH Pop-Up drainer system, which allows you to manage the nicely hidden waste outlet by just pushing a button.

For some extra functionality, we added complimentary chopping board to each Jubilee kitchen sink, beautifully designed out of noble walnut wood.

The chopping board will smoothly glide above the bowl and greatly help you with your everyday chores.

Make your kitchen stylish and homey with the perfect combination of organically designed Jubilee and warm walnut chopping board.

Pure Up Pure

Kitchen sinks Pure will surely be a focal point of your kitchen. Your eyes will admire its sophisticated design, clean lines and impeccable shine. Enormous bowls will make you want to clean the dishes over and over. Radius 15 gives a sink an elegant design and yet it makes a sink easy to clean. As the design itself is not enough, we upgraded an elegance of the sink with F and S installation which makes a sink become one with the worktop.

All Pure models are now available in Up-graded version with a new PUSH Pop-up drainer system which gives a kitchen sink a totally high-end look and extra functionality with just a push of a button. Besides, the version is also equipped with removable magnetic waste cover.

- modern, timeless design
- clean lines and smooth surfaces make it perfect to fit the sink to every kitchen style
- high quality stainless steel of 1mm thickness
- bowl radius of 15mm
- spacious bowl in deepness 195mm
- choice of flat mount inset (S) or flush mount inset (F)

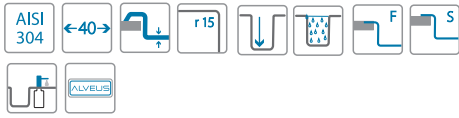

- enclosed Push Pop-up waste kit for super easy handling
- aesthetically concealed overflow
- aesthetically hidden outlet
- large round waste outlet (fi 90mm)
- above-average soundproofing
- packed in the carton

STAINLESS STEEL

Rando Up Rando

NEW
FAMILY

Given the trends and desires for ever-larger and spacious bowls, we have formed the kitchen sink family Rando. These models will surely satisfy both aesthetic and functional trends. Rando 30 may, due to its reversibility be turned either way as Rando 50 with even a bit bigger bowl is available in a left or right version. Both models fit into a minimal cabinet of 60 cm and are available in F (flush mount) / S (flat mount) or I (inset mount) version. With the Rando models, you are getting a contemporary clean design, yet because of the smooth 15 mm bowl radius, you are also guaranteed an easy cleaning.

- The bowl radius 15 mm in combination with 195 mm depth provides for a considerably larger dishwashing space.
- left, right orientated or reversible model
- Modern, clean drainer surface design yet super functional at providing easy and efficient dish draining.

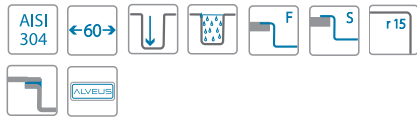

- contemporary and minimalistic design
- enclosed Pop-up system – enables remote water-draining management
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – suitable for every type of kitchen worktop
- Inset (I) installation - suitable for every type of kitchen worktop
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- clean lines and smooth surfaces – enable simple cleaning and maintenance
- bowl inclination towards the drain opening – enables water to drain-off faster
- round waste outlet – fi 90 mm
- above-average soundproofing
- optional accessories

Stricto

With kitchen sinks Stricto we took a different approach to its functionality. We wanted to clear the drainer surface for more and easier manipulation and so moved the mixer tap “dashboard” to the side of the kitchen sink.

With moving the mixer tap „dashboard” to the side of the sink, we took down a few cm off the kitchen sink width and gave some extra space at the back of it, maybe just enough to put away a glass, sponge...

Adding extra characteristics like clean and modern lines, big and deep bowl made of high-quality stainless steel and all this complemented by highly useful Pop-up siphon we get a great combination of design and functionality.

You can choose from 3 different models, one of them reversible.

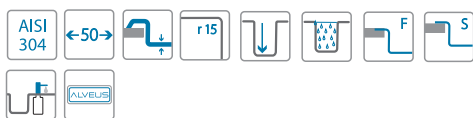

- the bowl radius of 15 mm in combination with 205 mm depth provides for a considerably larger dishwashing space
- 1 mm thick stainless steel ensures greater rigidity and stability of the sink
- flat mount inset (S) or flush mount inset (F) installation add to the clean design
- flush mount inset (F) installation with seamless edges enables simple cleaning
- side mixer tap position on the sink what makes drainer surface cleaner and more spacious

- contemporary and minimalistic design
- clean lines and smooth surfaces – easier cleaning
- Pop-up system – enables remote water-draining management
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- clean lines and smooth surfaces – enable simple cleaning and maintenance
- smooth draining surface, inclined towards the bowl – prevents line scale sedimentation
- bowl inclination towards the drain opening – enable water to drain-off faster
- optional accessories
- large strainer bowl adds to the sink functionality
- round waste outlet – Ø 90 mm
- enclosed Pop-up siphon
- above-average soundproofing
- possibility of under - window installation

STAINLESS STEEL

Quadrix

The Quadrix sinks allow great creative freedom in the kitchen. With clean shapes and a touch of the latest trends, they are designed for the most demanding users. The line comprises different models of various dimensions, which can be combined in any way you choose. The sinks are manufactured from high-quality stainless steel of above-average thickness. Their basic characteristic are small radiuses (10 mm); in combination with a 200 mm bowl depth, these provide a significantly increased sink bowl capacity.

- various bowl combinations possible
- flat mount inset (S) or flush mount inset (F) installation – adding to the clean design
- flush mount inset (F) installation with seamless edges enables simple cleaning
- the bowl radius R10 with 200 mm depth provides for a considerably larger dishwashing space

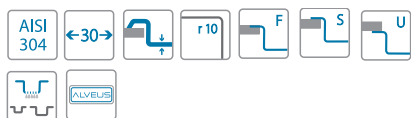

- clean lines and smooth surfaces – enable easy cleaning and maintenance
- possibility of combining various bowls at the same time
- 1mm thick stainless steel ensures rigidity and stability of the sink
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- Pop-up mechanism – enables remote water-draining management
- flush mount inset (F) or undermount (U) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- round waste outlet – Ø 90 mm
- optional accessories
 - large strainer bowl adds to the sink functionality
- above-average soundproofing

Kombino

Combine two, three or more Kombino undermount bowls and create your dream kitchen station. You may choose from six different spacious bowls made of high quality stainless steel. Depth and radius R15 of the bowls will give your kitchen a high-end look at the reasonable price. Models Kombino 20, 30, 40 and 50 can be installed also as flush mount (F) or flat mount (S); flat mount allowing installation into any of countertop.

- the bowl radius R15 with the above-average depth of 195mm depth provides for a considerably larger dishwashing space
- 1mm thick stainless steel ensures rigidity and stability of the sink
- wide choice of bowl – numerous combinations possible

- contemporary and timeless design
- manually treated surface
- type of installation - undermount (U); certain models flat mount(S), flush mount (F) installation into countertops made from water-resistant materials–stone, composite, waterproof wood
- flat mount installation (S) allows installation put any type of countertop
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- round waste outlet – Ø 90 mm
- space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management

Galeo

Galeo family is designed to fit into every style and size of the kitchen. We combined the clean, modern design of the drainer surface with spacious bowls. 40 mm bowl radius is a great compromise of straight modern lines and soft edges that allow an easy cleaning. An optimal bowl radius has been combined with great depth and resulted in huge, spacious bowls. Galeo models are available in 3 dimensions with 3 different bowl sizes – from large to extra large.

- Original teardrop-design of drainer surface
- reversible models
- bowl radius 40 mm – a great compromise of elegance and functionality
- above average large and deep bowl – 190 mm

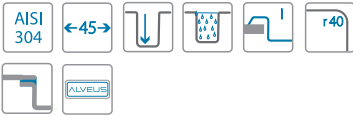

- round waste outlet – fi 90 mm
- Pop-Up draining system – enables remote water-draining management
- aesthetically concealed overflow

STAINLESS STEEL

Praktik

The modern lines of the Praktik sinks bring a touch of aesthetics and functionality into the kitchen. They boast exceptional depth and sink bowl size, which makes kitchen work so much easier.

The Praktik family consists of three models, one of them suitable also for corner cabinets.

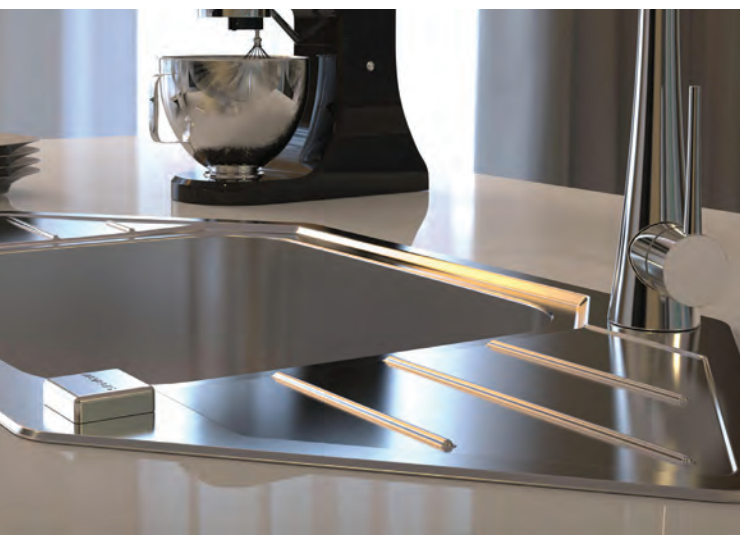

- reversible models
- above-average large bowl – enables easier manipulation with big pots, bowls and baking trays
- bowl depth – above-average depth of 210mm

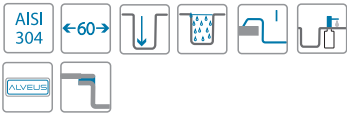

- round waste outlet – Ø 90 mm
- prefabricated holes Ø 35mm for the mounting of the mixer tap and the Pop-up siphon
- aesthetically concealed overflow prevents jamming of sponge or cloth
- Pop-up system – enables remote water-draining management
- above-average soundproofing

STAINLESS STEEL

Line Maxim Line Max

Line Maxim sink family of modern design and clean lines offers innovative and functional solutions and transcends the limits of “wet” kitchen area. Owing to the variegated and numerous accessories Line Maxim sinks make work in the kitchen so much easier. The functional washing-up and food preparation solutions are designed for the most demanding users. Namely, there is a wide array of available accessories- a stainless steel strainer bowl (colander) and tray, a glass chopping board, a pop-up waste system, as well as the large chopping board that crawls along the drainer surface.

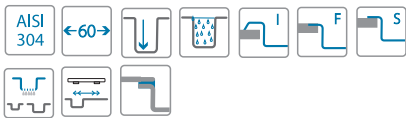

- reversible models
- wide choice of models – different dimensions, number and combinations of bowls
- it is possible to choose between the two stainless steel surface finishes - SATIN and LEINEN
- possibility of different installations – inset (I), flush mount (F) and flat mount (S)

- contemporary, modern design
- straight lines and smooth surfaces – enable easy cleaning
- above-average bowl depth – 190 mm
- wide choice of accessories - increases sink functionality
- flat mount inset (S) or flush mount inset (F) installation – adding to the clean design
- flush mount inset (F) installation with seamless edges enables easy cleaning
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- it is possible to choose between a model with two prefabricated openings Ø 35mm or one without them
- above-average soundproofing

Zoom Maxim

Zoom Maxim are a great compromise of design and basic dimensions. The family is composed of three models suitable for the kitchen cabinet of minimum width 45 cm. Depending on your needs and capabilities of your kitchen you can choose between three dimensions of contemporary designed draining surface. All three models shall provide you with large bowl with an above average depth of 190 mm. Kitchen sinks Zoom Maxim can benefit with additional functions by adding a wooden chopping board, a strainer basket and detergent dispenser.

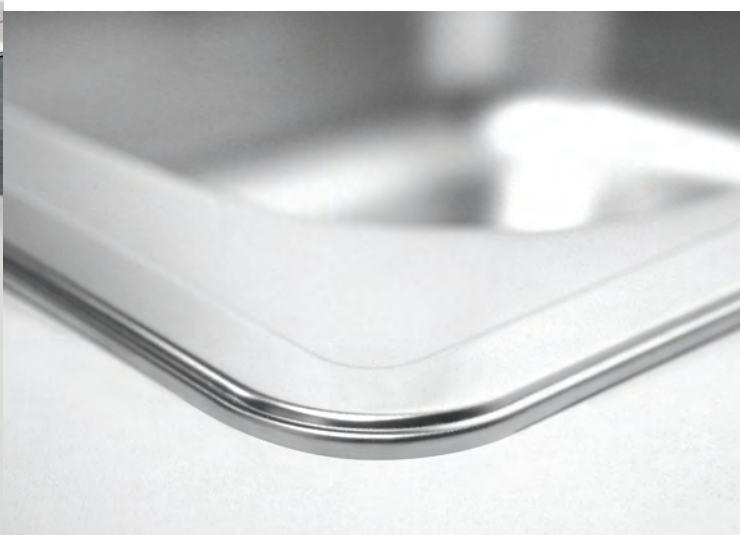

- basic dimensions, suitable for the cabinet 45cm
- possibility to choose from among three draining surfaces lengths
- stable draining surface due to the clever design

- reversible models
- large, spacious bowl
- optional accessories – adds to the sink functionality
- above-average bowl depth – 190 mm
- round waste outlet – Ø 90 mm
- enclosed space-saving siphon

STAINLESS STEEL

Classic Pro

Sit-on sinks are normally considered as basic, conventional models. But not Classic Pro. Sit-on sink Classic Pro is with its minimalistic lines and clean, smooth surface suitable for up-to-date designed kitchens. Certain models are designed as workstations with flat working surface without inclination towards the bowl. Such workstation can substitute your countertop and add a value and security with its elevated edge. Liquids will not spill over. Classic Pro can beautifully replace a part of your working top. However, if you would like to add an edge and literally height to your kitchen, you should mount the Classic Pro model onto the countertop. Your kitchen shall get a bold look and your worktop additional 3 cm what will make your manipulation around the sink more comfortable.

- modern design
- sink surface additionally reinforced by a chipboard and wooden laths – ensured sink stability
- possibility of installation onto the countertop – additionally raised worktop (3cm) adding a modern look to the kitchen

- models Classic Pro are designed as workstations with deepened working surface
- minimalistic lines and smooth surfaces – enable easy cleaning and maintenance
- reversible models
- sit-on installation – replaces the kitchen worktop
- large, spacious bowls
- above-average bowl depth – 190 mm
- round waste outlet – Ø 90 mm

More

One kitchen sink which satisfies many needs. Kitchen sink More is an excellent model for the kitchens with space shortage as well as for modern kitchens. Depending on what look would you like to accomplish in your kitchen you can choose between different types of installation. Other than the classic inset (I) installation you may give the kitchen a modern look with flat mount (S) installation. In case of waterproof working top you can additionally choose from flush mount (F) and undermount (U) type of installation. In case of undermount (U) installation you will add additional 3 cm of depth to the sink.

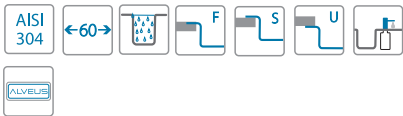

- classic-modern design
- above-average spacious bowl

- flush mount inset (F) or undermount (U) installation with seamless edges enables easy cleaning
- flush mount inset (F) or undermount (U) installation – suitable for waterproof worktops
- inset (I) and flat mount (S) installation – possible installation into every type of kitchen worktop
- larger bowl radius – easier cleaning and maintenance
- round waste outlet – Ø 90 mm
- prefabricated hole – Ø 35mm

Elegant

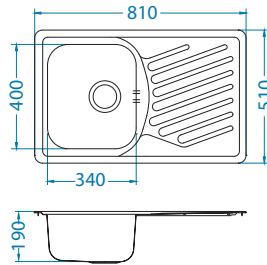

The Elegant sink family suits almost any kitchen, for their classic design maintains timeless appeal. Various bowl sizes and configurations with or without the drainer surface compose the variegated kitchen sink family. The large bowl has an above-average depth of 190 mm, while the depth of the smaller bowl amounts to 130 mm. You can choose among models made in stainless steel with different surface finishes as well as among a wide range of suitable accessories.

- **iconic models**
- **it is possible to choose among two stainless steel surfaces - SATIN and LEINEN**
- **reversible models**
- timeless design of the draining surface
- above-average bowl depth – 190 mm
- round waste outlet – Ø 90mm
- enclosed space-saving siphon – provides for more free space in the cabinet

Duo

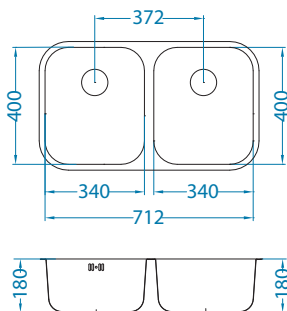

The Duo comprises undermount sinks, which nicely match kitchen worktops from natural stone, composites or waterproofed wood. These sinks are mounted from beneath and their rims are concealed under the worktops. In addition, useful accessories are available to order, such as wooden chopping boards, strainer bowls and detergent dispenser.

- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- optional accessories – adds to the sink functionality
- round waste outlet – Ø 90 mm
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management

Luno

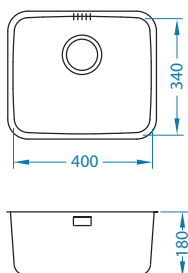

Luno undermount bowls are designed for large to extra large kitchen needs. Three large and deep bowls will provide enough space to wash all the huge pots and trays after your party. The bowls are not only functional but also quite stylish with its bowl radius of 40 mm, which is quite eye-catching and easy to clean.

- **bowl depth 180 mm**
- **bowl radius 40 mm – a great compromise of elegance and functionality**
- **aesthetically concealed overflow**
- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- round waste outlet – Ø 90 mm

Variant

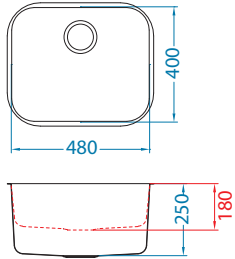

The Variant sinks comprise undermount bowl combinations. Some of them are also available in the flush and flat mount varieties. To make your decision easier, a few typical bowl configurations suitable for various cabinet dimensions are presented at the end of this section.

- **wide choice of bowl designs and depths**
- **possibility of combining various bowls at the same time**
- **bowl depths – from 120 to 250mm**
- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- Variant 10 and 40: different installations possible – undermount (U), flush mount (F) and flat mount (S)
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- round waste outlet – Ø 90 mm

Line

With their varied and large range of accessories, Line sinks make work in the kitchen so much easier. The functional washing-up and food preparation solutions, typical for high-end sinks and designed for the most demanding users, are now available at reasonable prices.

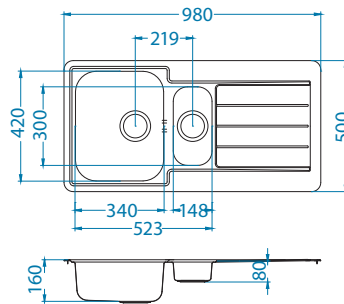

Various combinations of accessories can be put together and fully adjusted to individual needs. Line sinks are manufactured from quality stainless steel and come in two surface finishes.

- **reversible models**
- **wide choice of models – different dimensions, number and combinations of bowls**
- **it is possible to choose between the two stainless steel surface finishes - SATIN, and LEINEN**
- contemporary design
- straight lines and smooth surfaces – enable easy cleaning
- large, spacious bowls
- wide choice of accessories - increases sink functionality
- enclosed space-saving siphon – provides for more free space in the cabinet

Zoom

Kitchen sinks Zoom are a great compromise of design and basic dimensions. Sinks are suitable for the kitchen cabinet of minimum width 45 cm. Depending on your needs and capabilities of your kitchen you can choose between three dimensions of contemporarily designed draining surface and two surface finishes - satin and leinen. Kitchen sink Zoom can be refined with additional functions by adding a wooden chopping board, a strainer basket and detergent dispenser.

Granital

A vast range of Alveus sinks is made of high quality composite material Granital and Granital Plus. Due to the careful processing of the material, the surface of kitchen sinks Granital is smooth, pleasant to the touch and allows easy cleaning. Extra four colours, Granital Plus, are upgraded with shimmering metallic parts, which give an elegant high-end appearance to the kitchen sink and are available for models Sensual, Quadrix and Formic.

- high-grade composite material Granital
- models Sensual, Formic and Quadrix available in four colour shades with metallic lustre
- Sensual models – special hexagonal design of the draining surface, waste outlet and Pop-up button
- Formic & Quadrix models – available for inset (I) and undermount (U) installation

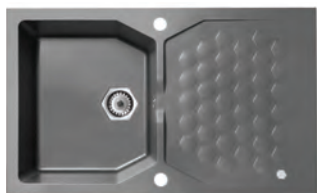

- wide choice of designs and shapes
- available in five earth-colour shades
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- carefully processed sink surface is smooth – enables easy cleaning
- round waste outlet – Ø 90 mm
- high content of granite particles – provides sink rigidity
- high shock, scratch and temperature resistance
- material strength - ensures mixer tap stability

KITCHEN WASTE AND PLUMBING KITS

Alveus waste kits are an integral part of every kitchen sink. Plastic parts are made of environment polymer materials, while the metal ones are stainless. Along with the appurtenant gaskets these form an effective used water drain system.

The waste kits fit to Alveus sinks and enable connection of dishwasher drain hose. The well-designed construction of Alveus waste kits allows easy cleaning and maintenance as well as better space utilisation in the sink cabinet.

- Wastes come in standard size of 1½" (strainer diameter 70 mm) and 3½" (strainer diameter 114 mm)
- Sink bowl drains can be closed by means of plugs or pull-out stainless steel strainer basket furnished with gasket
- PUSH Pop-up system with magnetic cover enables simple drain control with just a push of a button located on the sink edge
- Pop-up system enables mechanical drain control by means of a button located on the sink edge
- Overflow form is rectangular with different drain position (PP, HV and HPV)

KITCHEN MIXER TAPS

Alveus kitchen mixer taps are technologically sophisticated and come in various shapes to complement traditional as well as trendy kitchens.

The numerous varieties with regard to installation, operation and surface finishes allow an abundance of combinations.

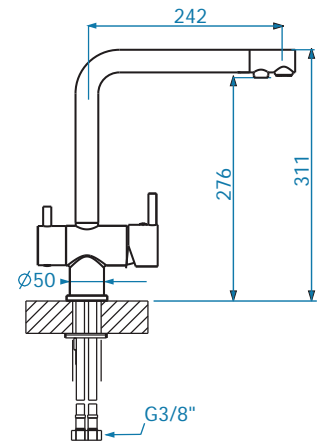

- Taps are made of brass or stainless steel with surface finish polished chrome (CHR), brushed chrome (CHR-BR), brushed nickel (NIC-BR), satin finish (SAT), Alveus colour range and ceramic nitride (PVD-treatment) in four shiny colours (Gold, Copper, Anthracite and Bronze)
- Ceramic discs and metal handles ensure reliable operation and long service life
- Taps can operate with water pressure from 0,5 to 8 bar (recommended 1 to 5 bar)
- Several models are fitted with pull-out spout and spray function
- Taps can be installed on the sink or kitchen worktop
- Some models are convenient for under - window installation
- Two flexible hoses with 3/8" connections ensure simple and fast installation to dual (hot-cold) water supply system
- Models with mark -  - are equipped with three connection hoses and can operate only with cold water supply, delivering hot water instantaneously on demand by means of un-pressurised water heater (usually electric boiler)

Aquila

Sink mixers connectable to the filter

Sink mixer Aquila is designed to be connected to the water filter, through which water can be cleaned of all contaminants, which impair the quality and taste of drinking water.

The sink mixer has a separate tube with its effusion for filtered/ drinking water and a separate tap handle.

Sink mixers do not include the water filter.

Sink mixer Aquila can be connected to water filter designed for household water purification.

WASTE SEGREGATION BIN SYSTEMS

Waste segregation bin systems Albio are designed to enable the most convenient removal of kitchen waste from the working surfaces. It is possible binning of different kinds of biological and non-biological waste. Due to various bin sizes and large total capacity, Albio systems fit any home.

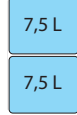

- Metal guides and stable construction enable binning up to 60 litres of waste
- The systems are intended for quick and easy mounting onto the cabinet bottom
- The systems are designed to prevent unpleasant odours from escaping
- Depends on the model there are systems with one, two or three waste bins
- The bins are made of environment friendly polymer materials, which are easy to clean and recyclable
- The built-in handles allow easy handling and stable insertion of trash bags
- System Albio 30 enables opening at the same time with door cabinet
- System Albio 40 can be turned to a drawer system with normal or assisted and damped closing by means of optional accessories

KITCHEN ACCESSORIES

Alveus dispensers of liquid detergents enable simple assembly in the kitchen. They are suitable for installation on the sinks and in all kinds of kitchen worktops.

The use of dispenser is very simple, for by pressing its upper part by one hand a required quantity of liquid detergent or liquid soap can be hygienically and optimally applied to a washing sponge. Pull out of the upper part enables easy refill of dispenser from above. The amount can be quickly checked due to transparent material of the dispenser container.

Alveus cutlery trays fit 500 mm long kitchen drawers in kitchen cabinets of standard sizes 400, 450, 600 and 900 mm. The trays are easy to cut in order to fit perfectly the drawer. They are made of polypropylene, an environment friendly polymer material that fulfils also hygienic requirements for coming into contact with foodstuff.

Alveus Allshine is universal cleaning agent for kitchen sinks made of stainless steel and composite material Algranit. It is also suitable for removal of persistent stains as well as limescale.

COOKERS

Alveus hob units are designed for kitchenettes and down-sized kitchens in flatlets, holiday homes and holiday cottages. They are distinguished for their functional hob configuration and the elegance of stainless steel housing.

Models are furnished with electric hot plates and comply with the EU directives on safety and electromagnetic compatibility. They combine a hob unit and sink in a single product.

Alveus hob units are installed as top end element of one or more kitchen cabinets.
